

Microsoft Dynamics GP Integration

Eliminate duplicate data entry with the seamless myStaffingPro® Microsoft Dynamics GP® integration.

Integration Features:

- ▼ **Automatic Requisition Export** – Maintain accurate and current requisition information with an hourly requisition export from myStaffingPro to Microsoft Dynamics GP.
- ▼ **Configurable Applicant Data Transfer** – Determine when and what information is transferred to Microsoft Dynamics GP with myStaffingPro's flexible integration options. Standard applicant export fields include but are not limited to:
 - Social Security Number
 - First, Middle, and Last Name
 - Address and Phone Number
 - Apply Date and Dynamics GP Status
 - Requisition Number
 - Referral Source and Description
 - Gender and EEO Ethnic Origin
- ▼ **Microsoft Dynamics GP Import** – Receive myStaffingPro data into the Human Resources (HR), Applicants, and/or Requisitions tables of Microsoft Dynamics GP.
- ▼ **Integration Administration** - View the integration's details and track the transfer status, date, and completion time. If desired, the automatic transfer can be suspended and scheduled for a later date.
- ▼ **Customization** - Add custom fields to myStaffingPro, and include the fields in the Microsoft Dynamics GP data transfer.

Please contact us at 800-939-2462 or sales@mystaffingpro.com for more information.

Microsoft Dynamics GP

The screenshot shows the Microsoft Dynamics GP interface. At the top, there's a navigation bar with 'Req Posted To', 'Status', 'View', 'Post Date', and 'Action'. Below that, a table shows 'Candidate Type' as 'Active', 'View On Web' as '09/11/2008', and 'Candidate Form Web' as 'Candidate Form Web'. A 'View Notification Requests' link is also present. A message indicates that fields with inline editing are highlighted in yellow. The 'Details' section shows requisition information: 'Req Number: DA-080017', 'Location: River Falls', 'Title: Daily Living Assistant Supervisor for RF & Dum', 'Category: Daily Living Assistant Support Supervision', 'Full-Time Part-Time: Full-Time', 'Shift: Days', 'Exempt/Non-Exempt: Exempt', 'Questionnaire: N/A', and 'Created By: McCoin, Patricia'. A red box highlights the 'Dynamics GP Integration' section, which shows 'GP Export Status: The requisition was successfully exported to Dynamics GP on 9/11/2008 4:29:24 PM. Dynamics GP ReqID: 50104'. Below this, fields for 'GP Department Code', 'GP Position Code', and 'GP Supervisor Code' are visible. The 'Description & Requirements' section at the bottom provides a detailed job description for the DLA Supervisor role.

myStaffingPro Requisition

The screenshot shows a list of applicants in Microsoft Dynamics GP. At the top, there are filters for 'Per by:' and 'Date of Applicant Inquiry, descending'. A table lists 315 applicants found. The table has columns for 'Name', 'Requisition', 'Location', 'Status', 'Score', 'Entry Activity Date', and 'MSP QuickNav'. The first few rows are:

Name	Requisition	Location	Status	Score	Entry Activity Date	MSP QuickNav
<input type="checkbox"/> Dink, Susie	Corporate Training & Development Specialist- VB	Burlingame, CA	AP - Not Qualified	0%	03/05/08 03/05/08	View On Web
<input type="checkbox"/> STOVER, RUTH ANN	Purchasing Agent	Dublin, OH	Sourced Resume	N/A	03/04/08 03/04/08	View On Web
<input type="checkbox"/> Fowler, Susan J	Corporate Training & Development Specialist- VB	Burlingame, CA	AP - Not Qualified	0%	03/03/08 03/03/08	View On Web
<input type="checkbox"/> Stover, Ruth Ann	Customer Service Consultant	Danville, VA	AP - Qualified	0%	02/26/08 02/26/08	View On Web
