myStaffingPro®

Applicant Tracking System

E-Verify Integration

Seamlessly submit and receive E-Verify information with the myStaffingPro® CARCO® integration. The integration provides a convenient way to submit E-Verify requests without logging into another system.

Features

- **Integrate with Onboarding** – Collect the I9 information during the onboarding process and immediately send the verification request to E-Verify.
- **E-Verify Process Support** – Receive knowledgeable support from the CARCO Group on any no match or contested results.
- **Review E-Verify Status** – Monitor the E-Verify request from the applicant's Verification tab in myStaffingPro. The applicant's status will be automatically updated as the verification is submitted, confirmed, and completed.
- **Obtain One Click Access to Results** – Select the view/edit link on the applicant's Verification tab to review information about the applicant's verification.
- **Restrict User Access** – If desired, you can limit which users have access to view the applicant's E-Verify results.
- **Review a Detailed Activity Summary** – Access a complete log of the E-Verify activity through the applicant's Notes tab.
- **Maintain Compliance** - Ensure compliance with thorough reporting and tracking capabilities. The myStaffingPro system records every activity, update, and hire.

Please contact your Sales Representative for additional functionality and pricing information.
