myStaffingPro®

Applicant Tracking System

OFCCP Compliant Resume Mining

Search for resumes online and import applicants into myStaffingPro® with the OFCCP Complicant Resume Mining module.

Features

- **Maintain OFCCP Compliance** – Record your resume search parameters in the convenient import sidebar. The search parameters are saved in myStaffingPro for reporting purposes.
- **Specialized Sourcing Code** - Report, review, and track your sourced applicants with a tracking code specific to each resume search.
- **Launch the Resume Search from myStaffingPro** – Select the convenient action link to launch the OFCCP compliant search from myStaffingPro.
- **Track Sourced Applicants** - Monitor and track your sourced applicants with a specific status.
- **Import new Applicants** – Drag and drop an applicant's resume into a text box, and let the OFCCP Compliant Resume Mining Tool parse out their contact information and add them into myStaffingPro.
- **Invite Sourced Applicants to Apply** – Send an email invitation to ask sourced applicants to complete your online application process.
- **Analyze OFFCP Searches** – Launch the specialized OFCCP report to view a summary of applicants imported and the search parameters.

Please contact your Sales Representative for additional functionality and pricing information.
